

CARB & EPA APPROVED RUBBER FUEL HOSES

Industries utilizing
our Fuel Hoses:

- Automotive
- Bus
- Off Road Vehicles
- Recreational Vehicles
- Emergency Vehicles
- Heavy Duty Equipment
- Small Engine Mfg's
- Motorcycle & ATV Mfg's

Due to the sudden shortages of Nylon 12 (or P-12) used to make the hard plastic fuel lines, Clean Seal, Inc. continues to provide their full line of CARB and EPA approved rubber fuel hoses.

These products are an excellent alternative to the plastic lines and are both production friendly and readily available. They are made to work with various types of gasoline and diesel fuels, as well as the various agricultural blends currently in use.

ISO 9001:2008

CLEAN SEAL[®], INC.
